

LIGHTWEIGHT & BRIGHT, THIS FLOOD HEADLAMP CAN OPERATE WITH OR WITHOUT TOUCHING A BUTTON!

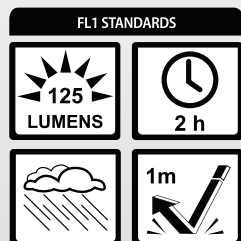

- Two methods of operation; the push button or the sensing mode to project a low flood beam, a high flood beam or off.
- Adjustable swivel for ground or work area vision.
- Lightweight polymer housing design
- Low profile design fits within most visors and shields
- Multi-use adjustable strap securely adheres to helmets, hardhats and heads
- IPx4 rated water-resistant design suitable for outdoor use in wet environments

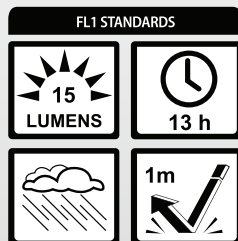

To engage the sensing mode, depress the button until the button shows a soft red light. With a wave of the hand in front of the left or right sensors, the user can choose between Low, High or Off

SEE WITH A SOFT FLOOD FOR UP-CLOSE WORK OR WITH A BRIGHTER FLOOD BEAM TO PAINT THE AREA WITH LIGHT.
